

REF/GTU/AJG/jd/ Study club

11<sup>th</sup> October 2013

Dear Parent/Carer

Over recent years we have offers our Year 11 students the opportunity to attend study club on a Wednesday night between 3:15pm and 4:45pm and this has proved to be very worthwhile for a number of our students. In addition this year we are offering study club on a Tuesday between 3:15pm and 4:45pm for science only. A number of our students do have a science exam in November and this is an excellent opportunity to prepare for this as well as the exams in May/June 2014.

Study club gives the students the opportunity to catch up on outstanding coursework/assessments, to go over topics they find difficult as well as prepare for progress assessments and the final examinations through structured revision. Most subjects do offer these study club sessions although in some instances the teacher staying may not be the student's usual subject teacher.

We have arranged for a free bus to leave school at 4:45pm which travels around the catchment area to ensure the students are able to get home safely on both evenings.

We do hope to see as many students as possible attending study club as frequently as possible. Please do not hesitate to contact us if you have any questions.

Yours faithfully

G Turner  
Leader of Student Development – Y11
